Profile

Experienced and innovative software engineer with 5 years of experience in programming and problem-solving. Proficient in Angular, Spring Boot, and Node.js, with expertise in full-stack development and Agile methodology. Demonstrated ability to design and implement scalable, efficient, and maintainable software solutions. Passionate about emerging technologies and collaborating with cross-functional teams.

Work Experience

System Engineer

Tata Consultancy Services (TCS) | May 2022 - Present

- Collaborated closely with stakeholders to prioritize product features, ensuring alignment with overarching business objectives and user requirements.
- Demonstrated leadership by managing and mentoring cross-functional teams, delivering technical guidance, and providing constructive feedback to bolster team performance.
- R&D initiatives focused on deployment technologies, microservices, and micro frontend architecture, driving innovation within the organization.
- Implemented RESTful APIs utilizing Java, Spring Boot, optimizing data exchange processes and system interoperability.
- Crafted intuitive user interface components featuring interactive graphs and relational diagrams, facilitating seamless user interactions, forms, validations, dropdowns, routings, dependency injection, data bindings etc., and enhancing data visualization capabilities, within Angular frameworks.
- involved in development of new application using Angular frameworks like bootstrap, Prime NG, Angular Material and customized provided by organization.
- backend services integration with Angular application.

Key Projects

BMO - Bank of Montreal (2.6 years)

My Accounts (Team)

Skills- Angular, Bootstrap, Prime NG, Angular Material Java 21, Spring Boot, Oracle, Git, Bitbucket.

- Developed the Transport Finance User Profile, Payment, billing address, invoices, Recurring payments etc., replacing the JSP files (Jakarta Server Pages).
- Implemented with robust and Maintainable, ensuring seamless transactions and seamless integration with diverse partners.
- Utilized Angular 12 and Bootstrap for user interactive fields and Prime NG for icons.
- Utilized Java 21 and Spring Boot for RESTful API implementation, integrated with Oracle database for optimized performance and scalability.
- Bitbucket is used to store and manage code.

DOC Management (Team)

Skills- Django, Bootstrap, python, JavaScript, Git, Bitbucket.

- Developed the document upload, read data from document and display, delete and update from scratch.
- Utilized Django framework for Graphical User Interface.
- Handled API calls through python Program.

FileNet (Team)

Skills- Angular, Bootstrap, Prime NG, Angular Material, Git, Bitbucket.

- Developed Selected Search Templates for released documents like search documents with customer ID, Account Number, Document Scan Start Date/End Date, Transaction Number.
- Utilized Angular, Bootstrap, Prime NG for templates.
- Bitbucket is used to store and manage code

Software Engineer (2 years)

Cavisson Systems Pvt Ltd., | Mar 2020 - Feb 2022

NetVision :

- Developed the NetVision Product for Correlate bad user experience with network, application, server, or database health, collecting real-time customer feedback to fix issues and enhance application performance replating JSP files (Jakarta Server Pages).
- Utilized Angular 8, Angular Material, Prime NG for development of application.
- real time experienced Bootstrapping this product into client application and retrieving real-time customer feedback to fix issues and etc.
- Later started working on bugs resolving in the application like table issues, binding proper key-value pairs, Time stamps, handling start date and end date, dashboard visibility, smart search, pagination etc.,
- resolving bugs helped to learn more about code standards, optimization, code flow and debugging skills.
- used GitLab to store and manage code.

Kohl's:

- Worked on development of Kohl's application modernization.
- Utilized Angular 10, Angular Material, Prime NG for modernization of application.
- Integrated Rest APIs with frontend application.
- GitLab is used to store and manage code.

Skills

- Programming Languages & Frameworks: Java, Spring Boot, Node.js, Angular, TypeScript, JavaScript, Python, Django
- Databases: MySQL
- Methodologies: Agile, Microservices, Micro frontend Architecture

Education

Bachelor of Science in Computer Science

- Bachelor of Science in Computer Science at Institute of Aeronautical Engineering, Hyderabad | July 2016 - June 2020
